| Michael Granillo | | 2 nd Quarter | Week Beginning: November 6 th |
| School Year: 2023-24 | | Subject: Algebra 2H | |
| Monday | Notes: | Objective: Students will demonstrate mastery of the topics in Chapter 7 through an exam. Lesson Overview: Chapter 7 Test | Academic Standards: |
| Tuesday | Notes: | Objective: Students will investigate logarithmic functions by looking at tables and graphs. Lesson Overview: 8.1 - We will look at graphs of logarithmic functions and their graphs, and see the connections they have with exponential functions. We will also go over Chapter 7 Test | Academic Standards: F.IF.4 F.IF.7e |
| Wednesday | Notes: | Objective: Students will build on solving principles by solving logarithmic equations. Lesson Overview: 8.2 - Students will be given more tools to solve higher order equations, specifically exponential functions. | Academic Standards: A.CED.1 A.REI.11 |
| Thursday | Notes: | Objective: Students will be introduced to functions with a base of "e". They will use it to solve exponential equations. Lesson Overview: 8.3 - We will introduce the concept of THE exponential function and look at its graph and how to solve equations with e in it. | Academic Standards: A.CED.2 F.IF.6 |
| Friday | Notes: No School | Objective: Lesson Overview: . | Academic Standards: |
