

Michael Granillo		3 rd Quarter	Week Beginning: January 15
School Year: 2023-24		Subject: Algebra 2H	
Monday	Notes:	Objective: Lesson Overview: No School	Academic Standards:
Tuesday	Notes: We are starting on Chapter 2 and will go back and hit Chapter 1 afterward	Objective: Students will solve linear equations and inequalities in one variable and apply them to real life problems. Lesson Overview: 2.1 - Solve linear equations and inequalities	Academic Standards A.CED.1 A.CED.2
Wednesday	Notes:	Objective: Students will learn how to solve absolute value equations and inequalities in one variable Lesson Overview: 2.2 - We will build on what we learned yesterday by looking at the properties of absolute values and how we can solve them and what their graphs look like.	Academic Standards: A.CED.1 A.CED.3
Thursday	Notes:	Objective: Students will apply what they know about linear graphs to write equations of lines in standard and slope-intercept form. Lesson Overview: 2.3 - We will investigate the different forms of equations of lines and how we can move from one form to the other.	Academic Standards: F.IF.6 A.CED.2
Friday	Notes:	Objective: Students will solve systems of equations by graphing. Lesson Overview: 2.4 - We will apply what we learned about graphing to solve a system.	Academic Standards: A.REI.11 A.CED.3
