

Michael Granillo		3 <sup>rd</sup> Quarter	Week Beginning: February 5 <sup>th</sup>
School Year: 2023-24		Subject: Algebra 1	
Monday	Notes:	<p>Objective: Students will be introduced to equations involving absolute value and how to solve them</p> <p>Lesson Overview: 2.5 - Building on lessons involving absolute value, we will solve equations with absolute value, explaining why we need to create 2 equations for each problem.</p>	<p>Academic Standards: A.CED.1 A.REI.3</p>
Tuesday	Notes:	<p>Objective: Students will create and solve proportions using cross multiplication.</p> <p>Lesson Overview: 2.6 - We will review what proportions are and how to create them. We will then solve them through cross multiplication.</p>	<p>Academic Standards: A.CED.1 A.REI.3</p>
Wednesday	Notes:	<p>Objective: Students will investigate several geometric formulas and solve specific equations for a given variable by applying the properties of equality.</p> <p>Lesson Overview: 2.7 - We will learn vocabulary regarding literal equations and build fluency with solving formulas for a given variable. We will also apply the formulas to solve real-world problems</p>	<p>Academic Standards: A.CED.3 A.CED.4 A.REI.3</p>
Thursday	Notes:	<p>Objective: Students will synthesize the material in this chapter as review for the upcoming test.</p> <p>Lesson Overview Chapter 2 Review</p>	<p>Academic Standards: All the above</p>
Friday	Notes:	<p>Objective: Students will demonstrate mastery of the topics in Chapter 2.</p> <p>Lesson Overview: Chapter 2 Test</p>	<p>Academic Standards: NA</p>
