| MIchael Granillo |  |  | 3rd Quarter | Week Beginning： February $20^{\text {th }}$ |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| School Year：2023－24 |  |  | Subject：Algebra 2 |  |  |
|  | Notes： | No School |  |  | Academic Standards： |
| $\begin{aligned} & \stackrel{\rightharpoonup}{0} \\ & \text { B2 } \\ & \stackrel{2}{2} \end{aligned}$ | Notes： | Objective：Students will build on graphing fluency by exploring quadratic function graphs． <br> Lesson Overview： <br> 3.1 －Learn how to find the vertex，axis of symmetry，and intercepts of a quadratic function to graph it． |  |  | Academic <br> Standards： <br> F．IF． 4 <br> F．IF． 6 |
| $$ | Notes： | Objective：Students will be introduced to complex numbers and how to add，subtract，multiply，and divide them． <br> Lesson Overview： <br> 3.3 －We will look the world of complex numbers and why we need them． |  |  | Academic <br> Standards： <br> N．CN． 1 <br> N．CN． 2 |
| $\begin{aligned} & \stackrel{-1}{\hat{1}} \\ & \stackrel{0}{\omega} \\ & \stackrel{\rightharpoonup}{2} \end{aligned}$ | Notes： | Objective：Students will review factoring to be able to apply it to the solving of quadratics． <br> Lesson Overview <br> 3.4 －We will learn how to factor quadratics． |  |  | Academic <br> Standards： <br> N．CN． 7 <br> N．CN． 8 <br> F．IF． 8 |
| $\begin{aligned} & \frac{7}{⿳ 亠 口 冋 口 木 ~} \\ & \stackrel{2}{2} \end{aligned}$ | Notes： | Objective：Students will use completing the square to solve a quadratic equation． <br> Lesson Overview： <br> 3．4－We will learn how to manipulate quadratic functions into perfect square trinomials |  |  | Academic Standards： |
