		MIchael Granillo	3rd Quarter	Week Beginning: February 26th

School Year: 2023-24		Subject: Algebra 2	

Monday	Notes:	Objective: Students will build on their quadratic solving fluency by applying the quadratic formula. Lesson Overview: 3.6 - We will look at quadratic equations that can't be factored and learn how to plug a, b, and c into the quadratic equation.	Academic Standards: N.CN.1 N.CN.2
Tuesday	Notes:	Objective: Students will synthesize and compile the information from this chapter regarding graphing and solving quadratics. Lesson Overview: 3.2 - Learn how to find solutions of quadratics by graphing.	Academic Standards: F.IF.4 F.IF.6
Wednesday	Notes:	Objective: Students will synthesize and compile the information from this chapter regarding graphing and solving quadratics. Lesson Overview: Chapter 3 Review	Academic Standards:
Thursday	Notes:	Objective: Students will demonstrate mastery of the topics of Chapter 3. Lesson Overview Chapter 3 Test	Academic Standards:
Friday	Notes:	Objective: Students will review the topics from the first quarter. Lesson Overview: We will do a review that covers all of the topics from 1.1 to 3.7.	Academic Standards:
