

Name: Kristoffer Van Atten		Grading Quarter: Q3	Week Beginning: 1/29/2023
School Year: 23-24		Subject: AP Biology	
Monday	Notes:	Objective: Topic 1.1 Structure of Water and Hydrogen Bonding SWBAT Explain how the properties of water that result from its polarity and hydrogen bonding affect its biological function. Lesson Overview: Students will take notes in their Biological Interactive Learning Log, watch videos, and perform a short FRQ	Academic Standards: SYI-1.A
Tuesday	Notes:	Objective: Topic 1.1 Structure of Water and Hydrogen Bonding SWBAT Explain how the properties of water that result from its polarity and hydrogen bonding affect its biological function. Lesson Overview: Lesson Overview: students take notes in their Interactive notebooks. Using experiments described in past AP bio FRQs, identify and write about the various parts of the experiment.	Academic Standards: SYI-1.A
Wednesday	Notes:	Objective: Topic 1.2 Elements of Life SWBAT Describe the composition of macromolecules required by living organisms. Lesson Overview: students take notes in their Interactive notebooks. Using experiments described in past AP bio FRQs, identify and write about the various parts of the experiment.	Academic Standards: ENE-1.A
Thursday	Notes:	Objective: Topic 1.2 Elements of Life SWBAT Describe the composition of macromolecules required by living organisms. Lesson Overview: students take notes in their Interactive notebooks. Using experiments described in past AP bio FRQs, identify and write about the various parts of the experiment.	Academic Standards: ENE-1.A
Friday	Notes:	Objective: Topic 1.2 Elements of Life SWBAT Describe the composition of macromolecules required by living organisms. Lesson Overview: students take notes in their Interactive notebooks. Using experiments described in past AP bio FRQs, identify and write about the various parts of the experiment.	Academic Standards: ENE-1.A
