MIchael Granillo	4th Quarter	Week Beginning: March 18th
School Year: 2023-24	Subject: AP Statistics	

Monday	Notes:	Objective: Lesson Overview:	Academic Standards:
Tuesday	Notes:	Objective: Students will be able use basic probability rules, two-way tables, and venn diagrams to model a random process and calculate probabilities for two events. Lesson Overview: 5.1 and 5.2 - We will review the characteristics of probability	Academic Standards:
Wednesday	Notes:	Objective: Students will calculate conditional probabilities and determine if 2 events are independent. Lesson Overview: 5.3 - Conditional probability and independence. We will also look at tree diagrams to help us calculate probabilites.	Academic Standards:
Thursday		Objective: Students will review the topics of Chapter 5 Lesson Overview: Chapter 5 Review	Academic Standards:
Friday	Notes:	Objective: Same as above Lesson Overview: Chapter 5 Review	Academic Standards:
