|------------------------|--------|--|--|
| Name: 1st Grade | | Grading Quarter: 4 | Week Beginning: May 5 |
| School Year: 2024-2025 | | Subject: Science | |
| Monday | Notes: | Objective: Students will use climatologist skills to interpret temperature data in the US. Lesson Overview: Students will create a colorful map to represent temperatures across the US on page 54. | Acedemic Standards: ESS1-1 Use observations of the sun, moon, and stars to describe patterns that can be predicted. |
| | Notes: | Objective: Students will demonstrate knowledge. Lesson Overview: Students will need materials to complete module project: make a poster, model, or diorama to communicate observations of seasonal changes throughout the year. Pages 55-57. | Acedemic Standards: ESS1-1 Use observations of the sun, moon, and stars to describe patterns that can be predicted. |
| | Notes: | Objective: Students will demonstrate knowledge. Lesson Overview: Students will complete Module test. | Acedemic Standards: ESS1-1 Use observations of the sun, moon, and stars to describe patterns that can be predicted. |
| | Notes: | Objective: Students will complete STEM projects for the remainder of the year. Lesson Overview: | Acedemic Standards: |
| Tuesday | | | |
| Wednesday | | | |
| Thursday | | | |
