

Name: BRES 3rd Grade		Grading Quarter: 3	Week Beginning: February 24, 2025 WEEK 8
School Year: 2024-2025		Subject: SCIENCE	
Monday	Notes: Grade 5 Unit 2 Module 2 Lesson 3 DAY 1 Energy Transfer in Ecosystems	Objective: Students encounter the phenomenon of birds getting energy from their ecosystem. They observe a video of sanderlings hunting for food and ask questions of their observations. Lesson Overview: Workbook pgs. 92-93	Academic Standards: 3.L2U1.7
Tuesday	Notes: Grade 5 Unit 2 Module 2 Lesson 3 DAY 2 Energy Transfer in Ecosystems	Objective: Students investigate how energy is transferred from prey to predator in a lab. Lesson Overview: Workbook pgs. 94-95	Academic Standards: 3.L2U1.7
Wednesday	Notes: Grade 5 Unit 2 Module 2 Lesson 3 DAY 3 Energy Transfer in Ecosystems	Objective: Students read and discuss the article “Organisms in Ecosystems”. Lesson Overview: Workbook pgs. 96-97	Academic Standards: 3.L2U1.7

Thursday	<p>Notes:</p> <p>Grade 5 Unit 2 Module 2 Lesson 3 DAY 4 Energy Transfer in Ecosystems</p>	<p>Objective:</p> <p>Students read and discuss the article “Food Chains and Food Webs”.</p> <p>Lesson Overview:</p> <p>Workbook pgs. 98-99</p>	<p>Academic Standards:</p> <p>3.L2U1.7</p>
Friday	<p>Notes:</p> <p>Grade 5 Unit 2 Module 2 Lesson 3 DAY 5 Energy Transfer in Ecosystems</p>	<p>Objective:</p> <p>REVIEW. Students revisit how birds get energy from their ecosystem. They explain how energy in the food an animal eats was once energy from the Sun. They describe how energy is used by living things in the ecosystem.</p> <p>Lesson Overview:</p> <p>Workbooks pgs. 104-105</p>	<p>Academic Standards:</p> <p>3.L2U1.7</p>
